## Major Currencies Pairs CFDs

### Key Information Document (KID)

**CFD Major Currencies Pairs** - the currency pairs (base/quote currency) composed with any two of the following: **USD / EUR / JPY / GBP / CAD / CHF**. You may refer [here](#) to view all the available FX pairs that the Company currently offers.

#### PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

#### PRODUCT

The Manufacturer of this product is **eToro (Europe) Limited ('eToro EU' or 'the Company')** (<https://www.etoro.com>), a company registered in the Republic of Cyprus and regulated by the Cyprus Securities and Exchange Commission. You can contact eToro EU on <https://www.etoro.com/support/> for more information. This KID was updated on June 2021.

**ALERT: Contract for difference ('CFDs') is a complex financial product and may be difficult to understand. This product is not suitable for all investors. Before trading, please make sure that you understand the risks involved.**

### WHAT IS THIS PRODUCT?

#### Type

This is a Contract for Difference (CFD) that uses financial leverage mechanism. This product allows clients to speculate on the increases and decreases in the prices of major currencies pairs on international markets. Clients may open a long position (buy) if they think the price of the assets will increase or a short position (sell) if they believe that the price will fall.

#### OBJECTIVES

The objective of this product is to enable the client to derive benefits from price changes of the underlying assets without owning them. The return on this product is based on the position opening and closing prices. This product is entered into for the purpose of speculation or hedging and is commonly traded on margin. Margin refers to the use of an amount of capital to support an investment of a larger exposure. Please note that margin/leverage trading requires extra caution, because whilst you can realize large profits if the price moves in your favor, you risk extensive losses if the price moves against you.

#### INTENDED RETAIL INVESTOR

Trading in this product will not be appropriate for everyone. Only investors who understand how the prices of the product are derived, what is the margin and what is the financial leverage should choose this product. Investors must be aware of the investment risk; they can afford to lose; have a diversified investment and savings portfolio; have a high-risk tolerance; and have a good understanding of the impact of and risks associated with trading on margin.

### WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows the probability of loss on the product due to the product price changes, or because of the insolvency of the Company.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

LOWER RISK

HIGHER RISK

**The Company has classified this product as 7 out of 7, which is the highest' risk class.**

The product can be denominated in the other currency than initial investment, therefore the return can be subject of additional changes depending on the currencies exchange rate. Trading increase when trading with leverage, however, the total loss that you may incur will never exceed your invested amount. The Company offers Negative Balance Protection to its

Clients, meaning that they will never be able to lose more funds than the amounts invested with the Company. If the margin amount in your account falls below 50% of the total initial margin required for all the CFDs in your account, the Company must close out one or more of your open positions.

eToro EU CFDs are not listed on any trading venue (i.e., on an exchange), and the prices and other conditions are set by the Company. The contract can be bought/sold only with eToro EU and is not transferable to any other provider/third party. If you have multiple positions with eToro EU, your risk may be cumulative and not limited to one position.

## PERFORMANCE SCENARIOS

This key information document is not specific to a particular product, but it applies to a CFD on any Major currency that the Company offers on eToro EU platform. However, each CFD invest with eToro EU is specific to you and your choices. You will be responsible for choosing: the underlying Major currency, when to open and to close your position, the size of your position and whether to use any risk management tools eToro EU platform offers, i.e., stop loss/take profit orders. This underlying Major currency offered for each CFD would have material impact on the risk and return of your investment.

What you get will vary depending on how the market performs and how long you hold the CFD. The stress scenario shows what you might get back in extreme market circumstances, and it does not consider the situation where the Company is not able to pay you.

The following assumptions have been used to create the scenarios in Table 1:

CFD on a Major FX i.e. EUR/USD (held intraday) with leverage 1:30		
Opening price (either BID or ASK depending on the scenarios in table below)	P	1.1850 USD
Trade size (Per CFD):	TS	10,000

**DISCLAIMER:** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. The figures shown include all the costs of the product itself. The figures do not consider your personal tax situation, which may also affect how much you get back.

## WHAT HAPPENS IF ETORO (EUROPE) LTD IS UNABLE TO PAY OUT?

eToro EU is a member of the Investor Compensation Fund for Customers of Cypriot Investment Firms (CIFs) (the 'Fund'). The objective of the Fund is to secure any claims of covered clients against members of the Fund and to compensate covered clients for any claims arising from malfunction by a member of the Fund in fulfilling its obligations whether that obligation arises from legislation, the client agreement or from wrongdoing on the part of the member of the Fund. The payment of compensation by the Fund to the eligible clients of its members is subject to the existence of a well-founded claim by the clients against the member of the Fund. The Fund covers eligible investments up to 20,000 Euro per person. More information can be found [here](#). eToro (Europe) Limited clarifies that all retail client funds are segregated from the Company's own funds, as it is required.

## WHAT ARE THE COSTS?

Before you begin to this product you should familiarize yourself with all commissions, fees and other charges for which you will be liable. For more information about the composition of costs, please visit eToro website <https://www.etoro.com/trading/fees/>.

The table shows the different types of cost categories and their meaning		
One-off costs	Spread	The difference between the buy and sell price is called the spread.
	Currency Conversion	This is a charge for converting realized profit/loss from the instrument currency to the account currency.
Ongoing costs	Overnight fees	Overnight fees are for every day a Client keeps the position open. Depending on the position held and the Company's prevailing interest rates, the Client account may be credited/debited with the overnight cost.

CFDs FX are not suited to the long-term investor. If you hold a CFD open over a long period, the associated costs such as Overnight Fees/Credits will apply. The daily fee/credit will be multiplied threefold for positions carried over Wednesday nights. The fees/credit will be charged/credited at 17:00 New York time for any position open at this time.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

All additional documents containing information regarding the product, including detailed information regarding fees and product features, can be found on the Company website.

CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

## Minor Indices CFDs

### Key Information Document (KID)

**CFD ON Minor Indices:** All indices **different than FTSE 100; CAC 40; DAX30; DJIA; S&P 500; NASDAQ 100; Nikkei 225; ASX 200**. You may refer [here](#) to view all the Indices that the Company currently offers.

### PURPOSE

This document provides you with key information about this investment product. This is a not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### PRODUCT

The Manufacturer of this product is **eToro (Europe) Limited ('eToro EU' or 'the Company')** (<https://www.etoro.com>), a company registered in the Republic of Cyprus and regulated by the Cyprus Securities and Exchange Commission. You can contact eToro EU on <https://www.etoro.com/support/> for more information. This KID was updated on June 2021.

**ALERT: Contract for difference ('CFDs') is a complex financial product and may be difficult to understand. This product is not suitable for all investors. Before trading, please make sure that you understand the risks involved.**

### WHAT IS THIS PRODUCT?

#### Type

This is a Contract for Difference (CFD) that uses financial leverage mechanism. This product allows clients to speculate on the increases and decreases in the prices of stock exchange indices on international markets. Clients may open a long position (buy) if they think the price of the assets will increase or a short position (sell) if they believe that the price will fall.

#### OBJECTIVES

The objective of this product is to enable the client to derive benefits from price changes of the underlying assets without owning them. The return on this product is based on the position opening and closing prices. This product is entered into for the purpose of speculation or hedging and is commonly traded on margin. Margin refers to the use of an amount of capital to support an investment of a larger exposure. Please note that margin/leverage trading requires extra caution, because whilst you can realize large profits if the price moves in your favor, you risk extensive losses if the price moves against you.

#### INTENDED RETAIL INVESTOR

Trading in this product will not be appropriate for everyone. Only investors who understand how the prices of the product are derived, what is the margin and what is the financial leverage should choose this product. Investors must be aware of the investment risk; they can afford to lose; have a diversified investment and savings portfolio; have a high-risk tolerance; and have a good understanding of the impact of and risks associated with trading on margin.

### WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

LOWER RISK

HIGHER RISK

**The Company has classified this product as 7 out of 7, which is the highest' risk class.**

The product can be denominated in the other currency than initial investment, therefore the return can be subject of additional changes depending on the currencies exchange rate. Trading increase when trading with leverage, however, the total loss that you may incur will never exceed your invested amount. The Company offers Negative Balance Protection to its Clients, meaning that they will never be able to lose more funds than the amounts invested with the Company. If the margin

amount in your account falls below 50% of the total initial margin required for all the CFDs in your account, the Company must close out one or more of your open positions.

eToro EU CFDs are not listed on any trading venue (i.e., on an exchange), and the prices and other conditions are set by the Company. The contract can be bought/sold only with eToro EU and is not transferable to any other provider/third party. If you have multiple positions with eToro EU, your risk may be cumulative and not limited to one position.

### PERFORMANCE SCENARIOS

This key information document is not specific to a particular minor index. It applies to a CFD on any index that we offer on our platform. However, each CFD you invest with the Company is specific to you and your choices. You will be responsible for choosing an instrument; when you open and close your position; the size of your position; and whether to use any risk management tools with eToro EU platform offers, i.e. stop loss/take profit orders.

What you get will vary depending on how the market performs and how long you hold the CFD. The stress scenario shows what you might get back in extreme market circumstances, and it does not consider the situation where we are not able to pay you.

The following assumptions have been used to create the scenarios in Table 1:

CFD on a Minor INDEX i.e. USDOLLAR (held intraday) with leverage 1:10		
CFD on a Minor Index Opening price (either BID or ASK depending on the scenarios in table below)	P	92.50 USD
Trade size (Per CFD):	TS	1,000
Margin %:	M	10% (1:10 leverage)
Margin requirement (USD):	$MR = P * TS * M$	9,250 USD
Notional value of the trade (USD):	$TN = MR/M$	92,500 USD

Table 1:

Position opened as <b>BUY</b> (ASK price) Open price: 92.50 USD				Position opened as <b>SELL</b> (BID price) Open price: 92.50 USD			
Performance Scenario	Closing (BID) price (incl. spread)	Price change	Profit/Loss	Performance Scenario	Closing (ASK) price (incl. spread)	Price change	Profit/Loss
<b>Favorable</b>	93.50	1.08%	1,000 USD	<b>Favorable</b>	91.50	1.08%	1,000 USD
<b>Moderate</b>	92.90	0.43%	400 USD	<b>Moderate</b>	92.10	0.43%	400 USD
<b>Unfavorable</b>	92.00	-0.54%	-500 USD	<b>Unfavorable</b>	93.00	-0.54%	-500 USD
<b>Stress</b>	85.00	-8.11%	-7,500 USD**	<b>Stress</b>	100.00	-8.11%	-7,500 USD**

**\*\* this loss is restricted to your trading position - the stop loss level is 50% of your margin (In this example 50% of 9,250 USD)**

**DISCLAIMER:** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. The figures shown includes all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### WHAT HAPPENS IF ETORO (EUROPE) LTD IS UNABLE TO PAY OUT?

eToro EU is a member of the Investor Compensation Fund for Customers of Cypriot Investment Firms (CIFs) (the 'Fund'). The objective of the Fund is to secure any claims of covered clients against members of the Fund and to compensate covered clients for any claims arising from malfunction by a member of the Fund in fulfilling its obligations whether that obligation arises from legislation, the client agreement or from wrongdoing on the part of the member of the Fund. The payment of compensation by the Fund to the eligible clients of its members is subject to the existence of a well-founded claim by the clients against the member of the Fund. The Fund covers eligible investments up to 20,000 Euro per person. More information can be found [here](#). eToro (Europe) Limited clarifies that all retail client funds are segregated from the Company's own funds, as it is required.

## WHAT ARE THE COSTS?

Before you begin to trade CFDs on Indices, you should familiarize yourself with all commissions, fees and other charges for which you will be liable. These charges will reduce any net profit or increase your losses. For more information about the composition of costs please click [here](#).

The table shows the different types of cost categories and their meaning		
One-off costs	Spread	The difference between the buy and sell price is called the spread.
	Currency Conversion	This is a charge for converting realized profit/loss from the instrument currency to the account currency.
Ongoing costs	Overnight fees	Overnight fees are for every day a client keeps the position open. Depending on the position held and the Company's prevailing interest rates, the Client account may be credited/debited with the overnight cost.

CFDs on Indices are not suited to the long-term investor. If you hold a CFD open over a long period, the associated costs such as Overnight Fees/Credits will apply. The daily fee/credit will be multiplied threefold for positions carried over Wednesday nights. The fees/credit will be charged/credited at 17:00 New York time for any position open at this time.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

CFD does not have any recommended holding period, and generally is used for short term trading. There is not any lock-up period, and the Investor can liquidate the trading position and monetize the financial result at any time during market hours.

## HOW CAN I COMPLAIN?

If you have any questions that the Company can help you with, the Company has multiple tools for you to use, such as Frequently Asked Questions (FAQ), referring your enquiry via a Ticket system for the Customer Service department, or via a chat with a Customer Service representative.

If the Company is unable to answer your question or you feel that our answer is unsatisfactory, you may open an official complaint by filling in the required form found on the bottom of the text. We will do everything we can to address your complaint within 48 hours and provide you with a response. The Company will keep you updated on the progress of your complaint and a full written response will be provided to you no later than eight weeks from the date that we received the complaint. If you then feel that your complaint was not resolved satisfactorily by the Company, within three (3) months of our final response letter, you are able to refer your complaint:

### PERFORMANCE SCENARIOS

This key information document is not specific to a particular product. It applies to a CFD on any equity that we offer on eToro EU platform. However, each CFD you invest with eToro EU is specific to you and your choices. You will be responsible for choosing: an instrument, when to open and to close your position, the size of your position and whether to use any risk management tools eToro EU platform offers, i.e., stop loss/take profit orders. This underlying equity offered for each CFD will have material impact on the risk and return of your investment.

What you get will vary depending on how the market performs and how long you hold the CFD. The stress scenario shows what you might get back in extreme market circumstances, and it does not consider the situation where we are not able to pay you.

The following assumptions have been used to create the scenarios in Table 1:

CFD on Stock, i.e. an Apple (held intraday) with leverage 1:5		
CFD on Stock opening price (either BID or ASK depending on the scenarios in table below)	P	135 USD
Trade size (Per CFD):	TS	15
Margin %:	M	20% (1:5 leverage)
Margin requirement (USD):	$MR = P * TS * M$	405 USD
Notional value of the trade (USD):	$TN = MR/M$	2,025 USD

Table 1:

Position opened as <b>BUY</b> (ASK price) Open price: 135 USD				Position opened as <b>SELL</b> (BID price) Open price: 135 USD			
Performance Scenario	Closing (BID) price (incl. spread)	Price change	Profit/Loss	Performance Scenario	Closing (ASK) price (incl. spread)	Price change	Profit/Loss
Favorable	145	7.41%	150 USD	Favorable	125	7.41%	150 USD
Moderate	138.50	2.59%	52.50 USD	Moderate	131.50	2.59%	52.50 USD
Unfavorable	133	-1.48%	-30 USD	Unfavorable	137	-1.48%	-30 USD
Stress	120	-11.11%	-225 USD**	Stress	150	-11.11%	-225 USD**

\*\* this loss is restricted to your trading position - the stop loss level is 50% of your margin (In this example 50% of 202.50 USD)

**DISCLAIMER:** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. The figures shown includes all the costs of the product itself. The figures do not consider your personal tax situation, which may also affect how much you get back.

### WHAT HAPPENS IF ETORO (EUROPE) LTD IS UNABLE TO PAY OUT?

eToro EU is a member of the Investor Compensation Fund for Customers of Cypriot Investment Firms (CIFs) (the 'Fund'). The objective of the Fund is to secure any claims of covered clients against members of the Fund and to compensate covered clients for any claims arising from malfunction by a member of the Fund in fulfilling its obligations whether that obligation arises from legislation, the client agreement or from wrongdoing on the part of the member of the Fund. The payment of compensation by the Fund to the eligible clients of its members is subject to the existence of a well-founded claim by the clients against the member of the Fund. The Fund covers eligible investments up to 20,000 Euro per person. More information

can be found [here](#). eToro (Europe) Limited clarifies that all retail client funds are segregated from the Company's own funds, as it is required.

#### WHAT ARE THE COSTS?

Before you begin to trade CFDs on Stocks, you should familiarize yourself with all commissions, fees, and other charges for which you will be liable. These charges will reduce any net profit or increase your losses. For more information about the composition of costs, please visit [here](#). CFDs on stocks are not suited to the long-term investor.

##### The table shows the different types of cost categories and their meaning

One-off costs	Spread	The difference between the buy and sell price is called the spread.
	Currency Conversion	This is a charge for converting realized profit/loss from the instrument currency to the account currency.
Ongoing costs	Overnight fees	Overnight fees are for every day a client keeps the position open. Depending on the position held and the Company's prevailing interest rates, the Client account may be credited/debited with the overnight cost.

If you hold a CFD open over a long period, the associated costs such as Overnight Fees/Credits will apply. The daily fee/credit will be multiplied threefold for positions carried over Wednesday nights. The fees/credit will be charged/credited at 17:00 New York time for any position open at this time.

#### HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

CFD does not have any recommended holding period, and generally is used for short term trading. There is not any lock-up period, and the Investor can liquidate the trading position and monetize the financial result at any time during market hours.

#### HOW CAN I COMPLAIN?

If you have any questions that the Company can help you with, the Company has multiple tools for you to use, such as Frequently Asked Questions (FAQ), referring your enquiry via a Ticket system for the Customer Service department, or via a chat with a Customer Service representative. ### WHAT IS THIS PRODUCT?

#### Type

This is a Contract for Difference (CFD) that uses financial leverage mechanism. This product allows clients to speculate on the increases and decreases in the prices of Exchange Traded Fund (ETF). Clients may open a long position (buy) if they think the price of the assets will increase or a short position (sell) if they believe that the price will fall.

An ETF is an investment fund that trades on a stock exchange as a single security. It is designed to track an underlying benchmark. ETFs are open-ended, which means ETF shares can be created as necessary to meet demand. An ETF can track different asset types, i.e., equities (including specific sectors or different regions or countries), fixed income, commodities, property, volatility etc.

#### OBJECTIVES

The objective of this product is to enable the client to derive benefits from price changes of the underlying assets without owning them. The return on this product is based on the position opening and closing prices. This product is entered into for the purpose of speculation or hedging and is commonly traded on margin. Margin refers to the use of an amount of capital to support an investment of a larger exposure.
